

---

**My website is GDPR  
compliant. Really?**

**Get your privacy  
checklist.**

**Protect your business.**

---

---

**Here are 4 solutions to  
make your website GDPR  
compliant.**

---

---

**Informing and reminding  
individuals of their  
privacy rights is a key  
GDPR obligation.**

---

# Privacy policy

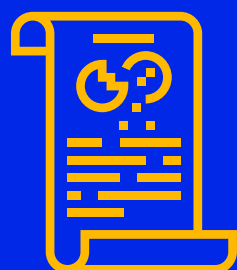

One of the main documents on any website which details your company's views and procedures on personal data collected.

This includes which data is collected, how and why it is collected, how long it is stored for and who it might be shared with.

# Cookie policy

Declaration on what cookies are used on your website, by whom, what user data is stored, why and for how long.

It also describes how users can reject or consent to the use of cookies.

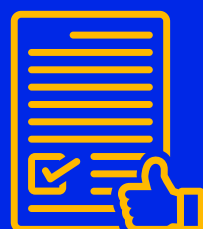

# Cookie banner

A cookie banner is an information and a consent management module on your website that allows your website users to consent to which cookies and tracking technologies they want to be installed on their device.

# Cookie consent management

A cookie consent management refers to a technology tool that allows a website to obtain and prove users' consents for the use of cookies and other tracking technologies on their device.

---

**These 4 solutions are legally required components to protect and inform your website' users.**

**They are also a great way to show them that you can be trusted, and handle their personal information with care.**

---

---

**BEING TRANSPARENT IS  
CARING ABOUT YOUR  
WEBSITE' USERS PRIVACY.**

**STRENGTHEN YOUR  
RELATIONSHIP WITH  
YOUR USERS NOW  
WITH ADMEET.**
